smartZoom®
classRoom

smart in media
the pathologists' company

SmartZoom® ClassRoom is the leading e-learning platform for medical teaching and revolutionizes the interactive presentation of medical images and diagnostics for students and physicians. This is because SmartZoom® not only integrates digitized histology images, but also photos, videos, texts and quizzes that are compiled into courses. No software installation is required for this – everything is available directly in the browser via PC/laptop, tablet or smartphone at any time.
Here are the features at a glance:

YOUR BENEFITS

STUDENTS AND MEDICAL PROFESSIONALS CAN ...
- learn and collaborate anywhere, anytime
- create personal annotations and notes for specimens, measure, use the search function, etc.
- learn interactively with videos, tutorials and tetbooks – all in one place
- view and compare up to six slides simultaneously & synchronously next to each other to, e.g. compare different staining

TEACHERS CAN ...
- create complete courses with microscopy and radiology images
- share single specimens via link/QR-Code
- add expert annotations, with which all users can learn
- can share learning materials complementary to the slides; e.g. PDF documents, presentations, photos, audio files, texts, Excel spreadsheets, external forms or educational videos via iFrame

QUALITY
- Interactive, modern learning through annotations, quizzes, etc.
- All slides and courses are available 24/7 in consistent high quality - no more fading of the specimens

SAVE COSTS
- Save the money used to maintain large microscopy rooms
- Less need for staff, since less supervision is required during lectures

UNLIMITED SUPPORT
- A support hotline will be available to you even after onboarding

IN BEST COMPANY
- Among many others, the European Society of Pathology, the International Academy of Pathology (IAP) and the International Academy of Cytology (IAC) already work with SmartZoom®

smartZoom®
classRoom

OPEN PLATFORM

• SmartZoom® supports all image formats, including DICOM for radiological examinations

QUIZ FUNCTION

• Create quizzes and repeatable self-tests to check learning progress
• Use different types of questions such as multiple choice, free text and matching

USER ACCESS

• In addition to normal login via e-mail registration, you can also use codes to invite new users to your SmartZoom® platform, and control who has access to what content (ideal for summer schools). These generated voucher-codes can be given out free of charge to people interested in your content, or sold in your online shop to monetize your content.
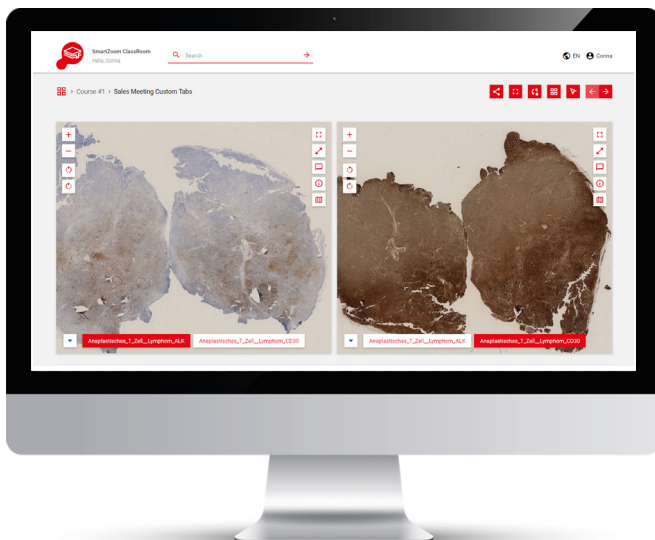

LEARN DIGITALLY

You don't have digitally scanned slides of your own? We can support you with fully annotated sets for pathology, cytology, hematology, and biology.
